- Redux Saga
- Axios
- HTML
- Node JS
- ReactJS
- NextJS
- MongoDB
- Mailchimp
- React Testing Library
- Styled components
- NX

👤 Profile

With over 4.5+ years of experience in web development, I am passionate about exploring new challenges and viewing them as opportunities to grow. I stay committed to continuous learning, keeping up with the latest technologies and trends to ensure my work remains innovative and aligned with industry best practices.

💼 Work Experience

La Net Team Software Solutions Pvt. LTD
Full Stack Developer

2020 – Present

- **Frontend & Backend Development:** I am skilled in React JS, Node JS, and many other supporting technologies.
- **State Management & UI Design:** I am experienced in using Redux, React Hooks, Context API, and Storybook to create reusable UI components.
- **Micro-Frontend Architecture:** I have worked with NX, TypeScript, Jest, and Styled Components to develop modular and testable parts of the frontend.
- **Programming Languages:** I have a strong knowledge of JavaScript (ES6+) and TypeScript.
- **Version Control:** I am experienced in using Git and GitHub for working together on code and managing it.
- **Agile & Project Management:** I have practical experience working with Agile methods and tools like Jira, Monday.com, and Trello.
- **Technical Experience:**
- **Full Software Development Process:** I know how to handle all stages of software development, from analyzing requirements to designing, coding, testing, documenting, and deploying.
- **Teamwork:** I actively work in teams, contributing to code reviews, sharing knowledge, and promoting best practices.

Accrete Infotech
Web Developer (Intern)

01/2019 – 12/2019

Part time internship for semester projects.

💼 Projects Details

Jarvis

Role: Frontend Developer
